

WATER FRAMEWORK DIRECTIVE

CIS CD ROM - 2005 VERSION

Disclaimer

This CD ROM has been developed as a communication tool of the Water Framework Directive Common Implementation Strategy (CIS), a collaborative programme involving the European Commission, all the Member States, the Accession Countries, Norway and other stakeholders and Non-Government organisations. The information included in the documents produced by the CIS should be regarded as presenting an informal consensus position on best practice agreed by all partners. However, the documents do not necessarily represent the official, formal position of any of the partners. Hence the views expressed in the document do not necessarily represent the views of the European Commission.
